### Winamp for Creators Introduces Exclusive Lifetime Offer for Early Adopters

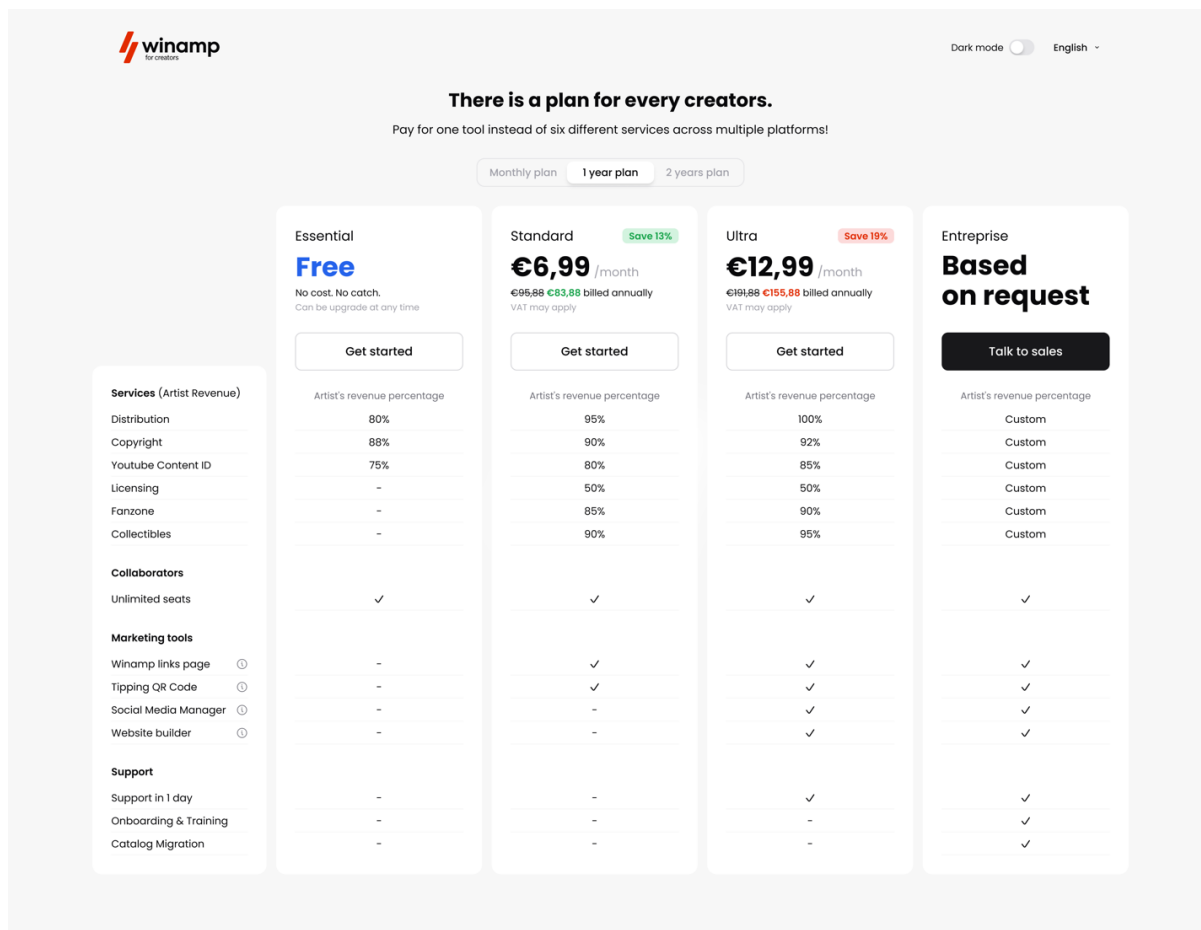

Winamp for Creators – the all-in-one platform designed to simplify the lives of artists and music professionals by consolidating essential tools and services for music management and revenue optimization – has recently unveiled a new user experience along with innovative marketing services.

In celebration of these enhancements, Winamp for Creators is excited to announce an **exclusive lifetime offer for early adopters at just 50 EUR/USD per year**. This limited-time offer is available until July 1st, after which new, official, and competitive pricing packages will be introduced. This Lifetime Offer guarantees that early adopters will continue to pay only 50 EUR/USD annually, **indefinitely**.

Subscribers to this exclusive offer will gain full access to the Winamp for Creators platform, including a suite of powerful marketing tools and revenue services such as Distribution, Licensing, Copyright Management, Content ID, Collectibles, and the Fanzone, now fully integrated and accessible via the Winamp Player.

*“Winamp for Creators is designed to help artists thrive as businesses. Today, in the music industry, artists and music professionals have lost control, forced to juggle numerous tools and services spread across multiple platforms. This complexity makes managing their content increasingly difficult. For the first time, a single platform aggregates everything they need into one seamless experience, making music management simple and efficient. Keeping our pricing attractive and transparent is a key priority for us. With this unique lifetime offer, we want to express our gratitude to the early adopters who trust and believe in our platform.”* **says Alexandre Saboundjian, CEO of Winamp.**

The new pricing starting July 1<sup>st</sup> 2025 will be the following:

**There is a plan for every creators.**  
Pay for one tool instead of six different services across multiple platforms!
